Section B – Type of Connection Offer required

Do you require an indicative Budget Estimate or a firm Connection Offer?

Connection Offer: A Connection Offer is a quotation which will set out detailed terms and conditions and once accepted will be binding on both parties.

When would you like us to provide the connection(s)?
Once you accept the Connection Offer we will contact you to agree dates which take account of team a vailability and Local Authority streetworks requirements:

Budget Estimate: A Budget Estimate is non-binding for indicative purposes only. This is useful at the early stages of a project, if you have not got final plans in place or a firm date in mind for the works.

DD/MM/YY

Section C - Responsibilities for Inclusion in the Connection Offer

To ensure we provide you with the most accurate quotation, it is important that we understand the extent to which you require services to be provided by WPD. Please indicate who will be undertaking each of the following activities:

Design and self-approval of the POC to WPD's existing network

Design approval of downstream assets to be adopted by WPD

WPD ICP

WPD

ICP

You must be signed up to WPD's Framework and POC Extension of Contestability Agreement and hold the relevant network design authorisations

You must have achieved design self-approval

Obtaining legals permissions and consents:

Completion of energising connection to WPD's network:

WPD

WPD

ICP

Ownership of the constructed network:

ICP

Please enter the IDNO name (if known)

WPD ICP

PROCEED TO SECTION D

Section D – Type of Connections Required

New Connections

Confirm the type of property requiring a new connection:

Installation of connections for adoption by WPD

Connection of an embedded

(IDNO) network

Please enter the connections to be installed, including those to be adopted by an IDNO, in sections E and F below.

Total Site Capacity

Please enter the total import and export capacity required

Import kVA Export kVA

Temporary Supply

Yes

Will a temporary supply be required?

No

Please enter your maximum

Please enter your maximum kVA power requirement of the temporary supply

Type of temporary supply

Single phase Three phase

Section E - Domestic Connections

How many connections are required?

Power requirement:

The normal maximum capacity for individual domestic properties is 15kVA. If you require a different maximum power for each property please enter the kVA value here

 $|L \setminus L \setminus \Delta|$

Landlord supplies:

Will any landlord's supplies be required?

Yes

Nο

Number of landlord supplies

Power requirement: kVA

Please enter your maximum power requirement for each landlords supply in kVA

Do you require your connection to accommodate motors, welders, electric vehicles or other disturbing equipment?

Yes (Proceed to section G)

No (Proceed to section H)

PROCEED TO SECTION F

Section F – Business Premises

How many connections are required?

Maximum power requirement for each connection

kVA

Please enter your maximum business premises power requirement, after diversity is applied

kVA

If power requirements differ significantly between supplies please provide more details in Section L – Additional Information

If your enquiry is for an increase in power, please state the existing load

kVA

Power guidelines: An 80 amp single phase supply can provide up to 18kVA. A 100 amp three phase supply can provide up to 69kVA.

Earthing

Earthing for connections to be adopted by WPD. However, some methods of building do not allow this means of earthing, in particular multi-occupancy steel framed buildings. In such cases alternative earthing solutions can be provided by your electrical contractor.

Is your building steel framed and subdivided into units?

Yes No

Do you require your connection to accommodate motors, welders, electric vehicles or other disturbing equipment?

Yes (Proceed to section G)

No (Proceed to section H)

Section G – Disturbing Loads

If you are connecting any electrical equipment which may cause a disturbance on the electricity system (e.g. motors, welders), please provide us with details. Note: upon assessment we may need more detailed information. If required, we will send you the appropriate data collection form for completion.

Motors Starting Current Number of starts (Amps) per hour

Single phase Three phase Direct Online Star Delta

Welders Input Number of welds voltage Rating per minute

Single phase Three phase

Do you require electric vehicle charging or heat pump installation?

No Yes

Please enclose with this application a completed ENA Application for the Installation of Low Carbon Technologies, available to download at www.westernpower.co.uk/EVHP

Other potentially disturbing equipment (please provide details)

Section H - Details of Electrical Load

Space Heating:

To help plan for your connection, please indicate below the fuel type to be used:

Gas Electric Electric Ground/Air Other
(Storage & Direct) Boiler Source Heat Pump (please specify)

For electric boilers and heat pumps, please include the manufacturer's specification sheet.

*Off-peak means the heating that can only operate during a pre-arranged time (usually 7 hours) in the range of hours 23:00-07:00 and is usually controlled by a time-switch.

For electric storage heating, kW For electric direct heating, kW total off-peak* load is: total load is:

Water Heating:

To help plan for your connection, please indicate below the fuel type to be used:

Gas Electric Electric Ground/Air Other
(Storage & Direct) Boiler Source Heat Pump (please specify)

Electric showers: Number of instantaneous showers Shower size (kW each)

Section I – Generation							
Will there be any on site electricity generation?			Yes (please provide details below)				
For ER G99 compliant installations, please enclose the relevant G99 application form with this application			No - proceed to section J				
Please indicate the type	e of generat	tion you are installing					
Solar panels	Wind	Battery storage		kW			
Other If other please specify:			Please provide the proposed generation capacity				
Will the generators be capable of operating in parallel with WPD's system?							
Yes No							
Please visit our website for more information on connecting electricity generation www.westernpower.co.uk/Connections/Generation							
www.westernpower.co.uk/	Commections/	Concration		PROCEED TO SECTION J			

Section J – Build out programme

We require your proposed build out programme for the development. Please indicate the number and type of connections to be constructed each year and the associated capacity.

Note: if your development is proposed to take longer than 5 years to construct, please enter the details in Section L - Additional Information. Number of domestic premises Number of business premises Annual capacity requirement (kVA) Year 1 Year 2 Year 3 Year 4 Year 5 Should you wish to provide any further information regarding your build out programme, please enter below.

Section K - Site Plans

In order to provide a Connection offer, we require one copy of the Location Plan and one copy of the Site Layout Plan, together with your application form.

Location Plan

The Location Plan shows where to find the proposed site for the new connection. All applications should have one Location Plan enclosed. Please highlight the site location on the plan.

Location plans can be obtained by using A-Z street maps or via the internet, which is now available in most public libraries.

The following sites offer instant Location Plans:

- www.multimap.com
- www.ordsvy.gov.uk

Site Layout Plan

- In the absence of an architect's drawing, please draw on a separate sheet a layout showing all the proposed buildings and accesses onto the site.
- 2. The proposed meter position(s) should be marked onto the plan with an X.

Section L - Additional Information

Please provide any additional information you feel may be relevant to your connection application:

Please send your completed application form with supporting documentation to your regional office:

Midlands

Western Power Distribution

Records Team 3rd Floor Toll End Road Tipton DY4 0HH

Western Power Distribution

Records Team Lostwithiel Road Bodmin PL31 1DE

T: 0120 889 2288

(Lines are open Mon to Fri, 8:30 to 5pm) wpdnewsupplies@westernpower.co.uk

^{*}For embedded networks, the plan should include the proposed Point(s) of Supply locations

Important

To prevent your application from being delayed, please ensure you have enclosed all the required information.

- Completed application form
- **✓** Location plan
- Site layout plan

Manufacturer's specification sheet

(if you are installing electric boilers, heat pumps, generation, or similar electrical equipment)

What happens next?

Western Power Distribution:

Assess the information you have provided, contact you to provide details of the local team responsible for the connection and, if required,

Provide additional information where requested.

Send you a Connection Offer which is valid for 90 days.

Customer:

To accept the Connection Offer, sign and return the Letter of Acceptance together with any payment due.

On receipt of acceptance and payment, prepare relevant documents including Site Specific Agreements for adoptable assets and Bilateral Connection Agreements for IDNO networks.

Sign and return any agreements within reasonable timescales and, in any case, in advance of the connection works being completed.

 $\overline{(4)}$

If required, enter into a legal process to obtain permissions for access to install and maintain our equipment.

To ensure the legal process runs smoothly, provide any information possible about the land on which the site is based. More information and a guidance document is available on our website: www.westernpower.co.uk/connections/new-connections/legal-permissions-and-consents.aspx

(5)

Where required, send you a Meter Point Administration Number (MPAN).

Register your MPAN with a supplier and enter into a supply contract.

Complete any works required by WPD as stated in the Connection Offer.

Appoint a suitably qualified electrician to carry out any internal wiring and connect this to your supply.

Complete connection works to be carried out by the ICP as stated in the Connection Offer.
