

WPD's BALANCING ACT CONFERENCE

20TH June 2019

One Great George Street, London

Please join us at our upcoming event, discussions will include;

- Use of state estimation in network operation and control
- Intelligent monitoring and analysis of power quality and harmonics
- Voltage optimisation and coordinated reactive power control
- Mitigation of fault level issues using Fault Current Limiting Interrupters (FCLi)
- LV Fault Location

The day will start with presentations focussing on the outcomes and learnings from two projects – Network Equilibrium and Losses Investigation.

After that we will be holding a panel session, with key industry professionals discussing the technical challenges the electricity network is facing.

The afternoon presentations will feature a variety of project updates, including EDGE-FCLi, Virtual STATCOM, and Primary Networks Power Quality Analysis. There will also be an introduction to some of our latest project portfolio additions, along with future project plans.

Agenda	
09.30 – 10.00	Registration & Refreshments
10.00 – 10.10	Welcome & Introduction
10.10 – 11.00	Network Equilibrium
11.00 – 11.30	Losses Investigation
11.30 – 11.50	Refreshments
11.50 – 12.30	Technical Panel Session
12.40 – 13.30	Lunch & Networking
13.30 – 14.00	EDGE-FCLi
14.00 – 14.30	Virtual STATCOM
14.30 – 14.50	Refreshments
14.50 – 15.30	PNPQA, ALARM & Future Projects
