Flameflash 2000

Movable seats + space for more

This is good; because of this, you will have your car for a long time - if your family gets bigger, you can just add more seats instead of throwing your car away.

A·C (air-conditioning / fans)

clear solar-panel roof (sun-powered + works in sun only)

Sun protecters - protects your eyes from the sun

6 seats (movable + space for more

coloured seats (fabric seats)

touch-screen + steering wheel

plays music too

Trashfuel (fuel made from household waste) - for non-sunny weather

air goes in + comes out fans (closes on cold days) - keeps the car warm.

aero-dynamic

recycleable tyres

Energy-capture brakes (when pulled, it recharges the car)

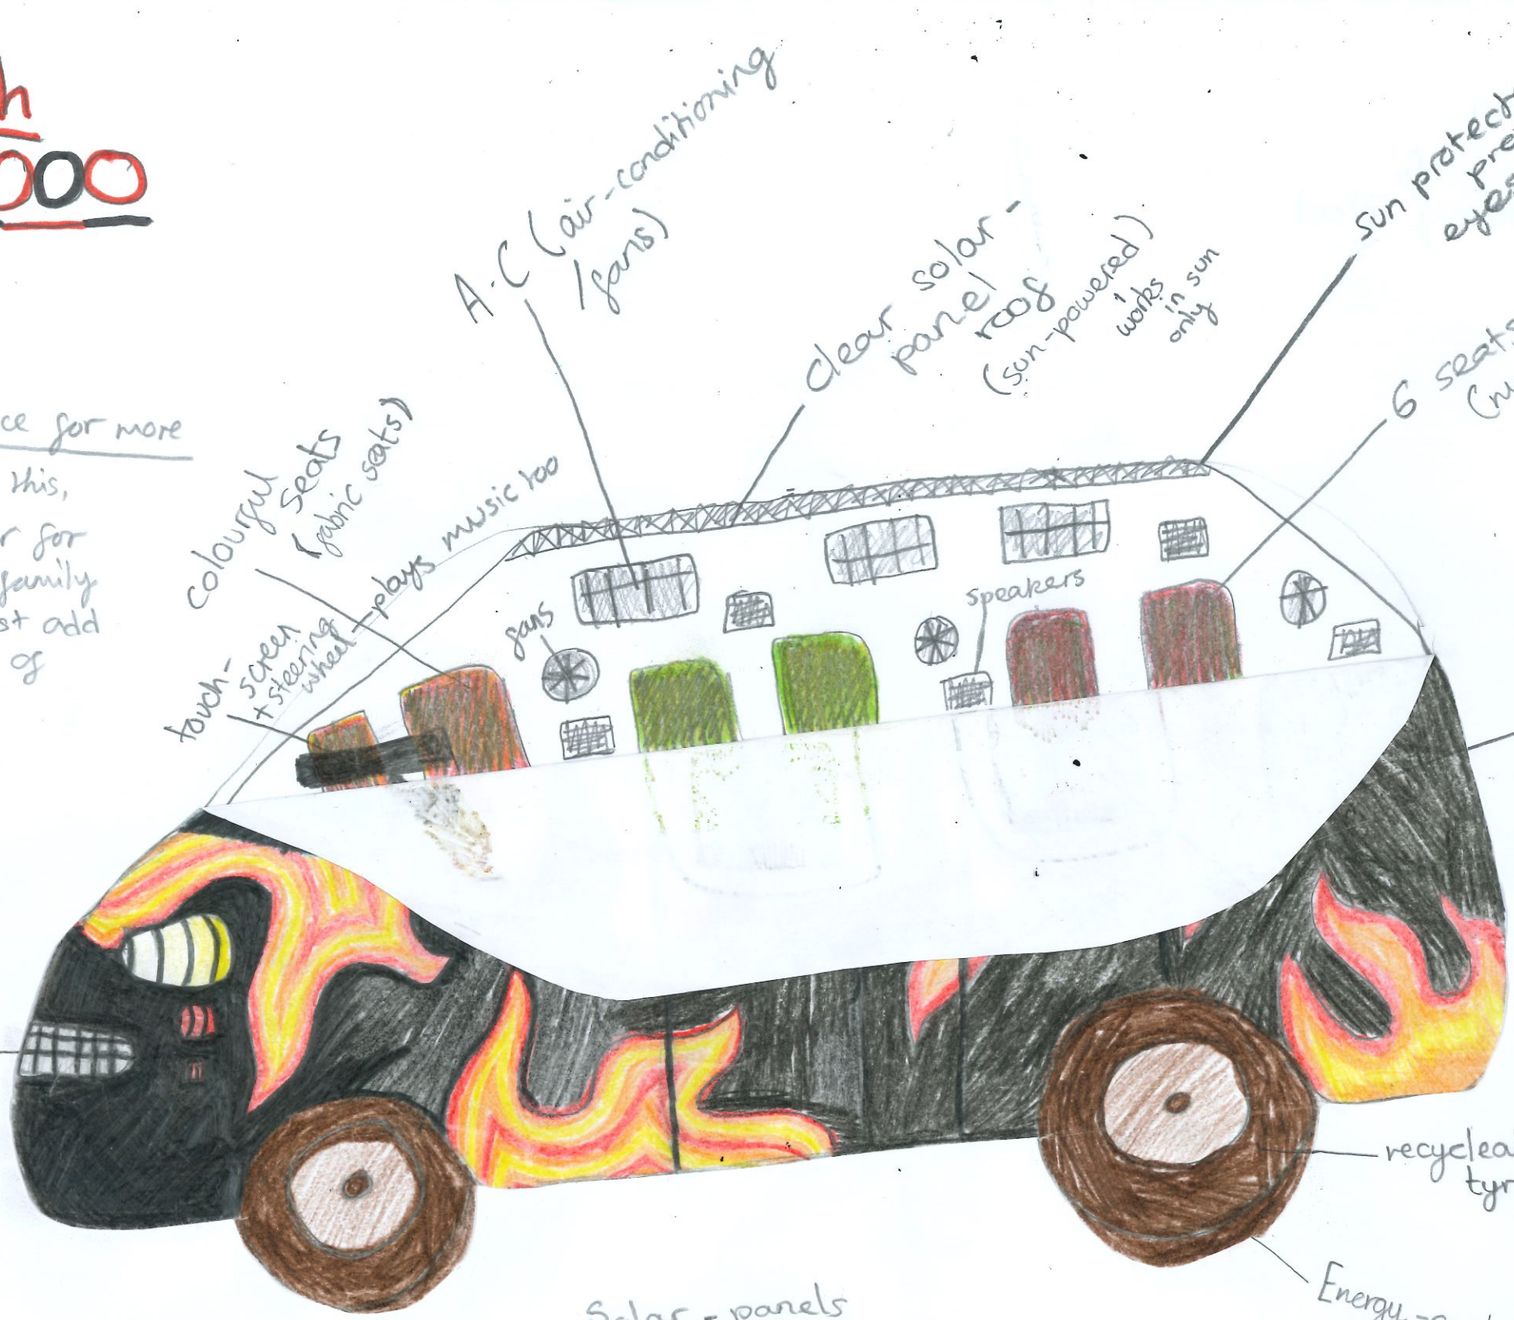

Solar-panels

This is energy-saving because when it is sunny, the sun's rays power the car. (It doesn't work when it's not sunny - use trashfuel)

Trashfuel

This is good because it gets rid of rubbish / waste and it doesn't need fuel. (for non-sunny weather)
