

WESTERN POWER DISTRIBUTION ("WPD")

APPLICATION FOR CONNECTION Micro Generation that has been type approved to G59/2.

This form should be completed by the Installer where an application for the connection of:

A single generator unit > 16 A per phase and up to and including 75 A per phase) in parallel with WPD's distribution system is required.

This information is to be provided to WPD prior to the installation of any generation unit(s) in order that WPD can assess the potential impact that the connection will have on the distribution system.

Project Details	
Site / Project Address (incl. post code)	
Telephone Number	
Customer Supply Number(s) (MPAN)	
WPD Enquiry Reference Number (if already allocated)	
Installer Details	
Installer	
Accreditation/Qualification	
Address (incl. post code)	
Contact Person	
Telephone Number	
Fax Number	
E-mail Address	
Generation Details	
Generation Owner	
Generation location with the installation	
Total number of generation units to be installed under this project, to include generation Unit capacity in kVA and location.	

Other Information to be Enclosed		
G59/2 type verification test report, to include the following information: <ul style="list-style-type: none"> • Manufacturer and model type • Generator rating (A) and power factor • Single or Multi phase • Maximum peak short circuit current (A) • Type of prime mover and fuel source • Contact details – telephone numbers, web address etc. 		
Copy of system circuit diagram within the installation.		
Earthing arrangements		
Site layout plan showing location of generation – if applicable.		
Declaration – to be completed by Applicant		
Comments (use separate sheet if necessary)		
I declare that this installation has been designed to comply with the requirements of ER G59/2		
Name:	Signature:	Date:
Accreditation/Qualification:		

WPD comments – to be completed by WPD Representative following application	
A representative of WPD will wish to witness the commissioning	yes/no
As a representative of WPD, I give, in principle, permission for the connection of these generation units. If “no”, see comments below.	yes/no
Comments (use separate sheet if necessary)
