23 April 2015

For the attention of Matt Roe

Dear Sir

**Re: Request for Statement of Works received on 25 March 2015
Bulk Submission for Embedded Generation at East Claydon 132kV Substation.
User Agreement Reference No. A/ME/90/7-6EX(3)**

I refer to your **Request for a Statement of Works** in relation to the possible connection of the above Embedded Generators to your **Distribution System** (the "Project"). The Company started processing this request on 26 March 2015.

We have now undertaken an initial assessment of the significance of the Project and believe the **Embedded Generators** does not have a significant impact on the **National Electricity Transmission System** (for the avoidance of doubt, such significant impact involves either party in an expenditure of more than £10,000) and would advise you of the following implications:-

- i. Requirement for works on the **National Electricity Transmission System** where such works are not at a **Connection Site**
NO
- ii. Requirement for works to the **National Electricity Transmission System** at a **Connection Site (Grid Supply Point)**
NO
- iii. Necessity for **Site Specific Requirements** (at the site of connection) of the **Power Station**
NO

As this **Statement of Works** does not specify any works as being required nor any **Site Specific Requirements** as being necessary, our letter completes the process required for in respect of your **Request for a Statement of Works** for the purposes of CUSC Paragraph 6.5.1(a)(i).

This **Statement of Works** is made on the basis of and is only valid in respect of the information provided by the **User** in the **Request for a Statement of Works**. If the **User** wishes to make any changes to any information submitted with the **Request for a Statement of Works** a new **Request for Statement of Works** must be submitted to **The Company** before **Energisation** of the connection can take place. Please note, you may not energise the connection of the Project without having received a written notification from **The Company** that the process set out in Paragraph 6.5 of CUSC has been complied with in full.

Please note this **Statement of Works** should be forwarded to the **Power Station** as soon as reasonably practicable in accordance with Paragraph 6.5.5.3 of the CUSC.

All communication in relation to this **Statement of Works** should, in the first instance, be directed for the attention of Steph Wootton, who can be contacted by telephone on 01926 656126 or by email at steph.l.wootton@nationalgrid.com

Yours faithfully

NICOLA PATON
